TECHNICAL REPORT NO. 27 (2006)

Table of Contents

CHAPTER 1   Simulation of AC Laterolog Response in a 2-D Formation, Shanjun Li and Richard Liu

CHAPTER 2   Interpreting fracture length from multi-array induction logs Yumei Tang, Tsili Wang and Richard Liu

CHAPTER 3   Numerical evaluation of the effective electrical properties of multi-component three-dimensional mixtures using a finite-difference time-domain method, Dagang Wu, Ji Chen and Richard Liu

CHAPTER 4   Invasion effects on resistivity time-lapsed logging, David Navarro, Shanjun Li and Richard Liu

CHAPTER 5   Electromagnetic Telemetry Technique in Measurement-While-Drilling (EMT-MWD), Hamid Naseri and Richard Liu

APPENDIX A   Addition of GENLAT 2.0 Code to the University of HoustonWell Logging Laboratory's Wellog Inversion Software Interface (General Laterolog tool), David Navarro, Ji Li, Kirill Davydychev and Richard Liu

APPENDIX B   AC GENLAT User's Guide - AC Lateral-log simulation software Shanjun Li and Richard Liu

APPENDIX C   INVASION1D06 User's Guide – Invasion profile simulation code David Navarro and Richard Liu

APPENDIX D   List of Theses and Dissertations

APPENDIX E   List of Technical Paper Publications
